## **THE PROJECT**

As part of the Boston Parks and Recreation's continuing efforts to provide quality open space and recreation areas for use and enjoyment by all residents of the city, efforts are underway to make improvements to Symphony Community Park.

## **WE NEED YOUR HELP!**

We are looking for interested community members to help us in determining how Symphony Community Park will look and function in the future. This park renovation provides us with a unique opportunity to create a space for all.

## **WHAT TO EXPECT**

The Parks Department is very interested in what the community has to contribute to the design process. The current project is a result of a community-inspired vision for park renovation that includes lawns and plazas, accessible paving, trees, benches, and tables. The meeting will provide an overview of the conceptual design, discuss key user issues and artwork, and elicit ideas from the community as the project moves into preparation for detailed design. Jon Pate, Senior Landscape Architect with Warner Larson, will facilitate the meeting, supported by Marie Fukuda and the Friends of Symphony Park. Following this presentation, community members will be invited to offer input regarding the material presented.
