

Bike lanes coming to Boylston Street

The City of Boston will be constructing bike lanes on Boylston St between Ipswich St and Park Drive to improve safety and encourage sustainable transportation. These bike lanes are part of the priority bike network described in Go Boston 2030.

In preparation for this work, repaving of patches in the asphalt will take place over the next three Saturdays (Aug 21, 28, and Sep 4).

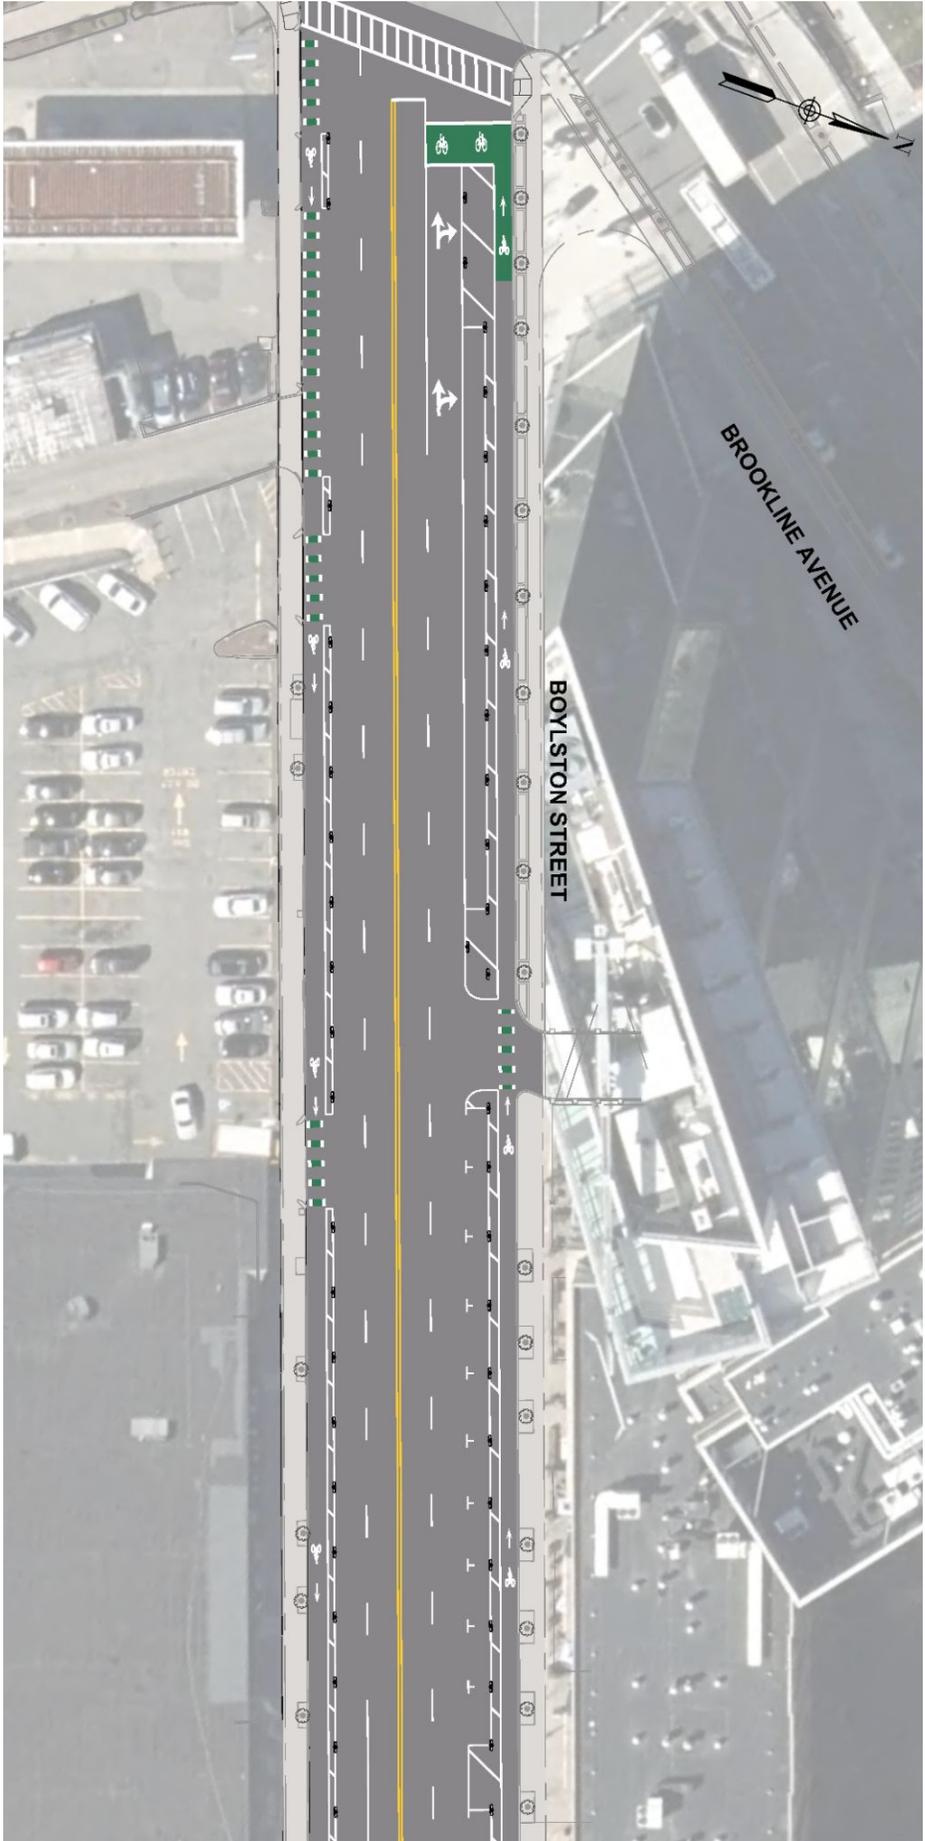

We'll be working on Saturdays from 7 AM to 4 PM.
